

ly taken.

Please do me the favor to hand the enclosed note to Mr. Phillips yourself; —

I should like the first number of your paper, issued in February & that of the 28th in addition to those commencing from this week — Please send them by mail. —

The serpentine course of my lines is caused by my debility. —

Very Respectfully Yours
Mary L. Gayson

Peterboro' March 5th 1862

Mr. Garrison
Dear Sir,

23

Your excellent paper reaches us every Friday, Miss Putnam being a subscriber, and we read it with much interest. Still I wish for another copy to circulate among my friends. —

Enclosed is the subscription money. I fear I shall not be able to subscribe a second time; for to use the language of Fable, Atropos, ere that period arrives, will, in all probability have severed my thread of life. I cannot call her relentless, as she has spared me many a year, while others much better qualified to remain from their superior power to do good, have been premature.
